

Gardner Spring, Inc.

## COVID-19 CONTINUITY OF OPERATION STATEMENT

March 23, 2020

During this difficult time, Gardner Spring, Inc. is committed to ensuring continuity of supply for all of our customers to the best of our ability.

Because many of our products are used in critical applications in aviation, transportation, medical device, defense, agriculture, food production, and other vital industries, Gardner, as a critical manufacturing business as defined by the Department of Homeland Security, will continue to operate, however, production speed and capacity may be scaled back as necessary to ensure the safety of our valued workforce.

Although all of our raw materials are U.S. sourced, the strain on the global supply of some materials is having an impact on the ready availability of steel and wire, which could cause delays filling orders for some of our stock and custom made items. Some secondary/finishing processes may also incur longer lead times.

We thank our customers for their patience, and wish to assure them that Gardner Spring, Inc. remains dedicated to providing the same level of customer service and quality that has been our hallmark for the past 113 years.

Orders may be placed via email at [orders@gardnerspring.com](mailto:orders@gardnerspring.com) or by calling 1-800-331-3263 or 918-583-0171. Our FAX number is 918-583-4521.
